

Infection control Skill Set (Transport and Logistics)

State ID: AE113

About this course

Learn to control COVID-19 related infection in transport and logistics

In these unprecedented times, new regulations need workers to manage infection control while in the supply chain of essential goods and services.

Skills can be applied to transport and logistics industry needs such as offices, depots, customer sites, roadside service areas, service centres, distribution centres, client workplaces, commercial buildings, residential buildings, vehicles including public transport vehicles, and yards and storage facilities.

Gain these skills:

- Introduction to Infection Control
- Chain of Infection and Disease Transmission
- Breaking the Chain of Infection
- Contamination and Cleaning
- Hazards, Risks, Responsibilities and Reporting

Maintain your ability to work safely and within government requirements; or, prepare your business for compliance by including your staff in training, raising their capability in ensuring the safety of staff and customers in your workplace.

Interested in non-transport and logistics infection control skills?

We have specific courses for selected industries, tailored to the infection control needs of those industries. Find out more by using the links to the other course pages below:

- General skill set
- Retail skill set
- Food handling skill set

Requirements of the course

This course includes both online study and on-campus assessment.

Once enrolled, you will receive information about how to login to our [eCampus](#) and you will need to complete a literacy and numeracy quiz to show you can study the course online. Your study will involve accessing content online for 5 study modules, followed by a series of online quiz assessments to test your knowledge.

When you finish your online study, there is a compulsory requirement to attend a practical demonstration and assessment session.

Help for using our online enrolment:

See our [guide for enrolling using our online system](#).

SKILLS
READY

Boost your skills for the future

This course can help you get ready for your first job, or re-skill quickly for jobs that are available as WA's economy recovers. **This course is absolutely free for anyone to study.** [Find out more.](#)

Overview

This course may be offered with a blended, flexible delivery model to enable social distancing measures to be undertaken during the COVID-19 pandemic. This approach may include a mix of online and classroom based delivery, as well as practical and work experience placements. Lecturers will provide any specific instructions if your training delivery style needs to change.
