

CHCSS00114 Entry into Care Roles Skill Set

National ID: CHCSS00114 | State ID: AE116

About this course

Learn to care for others in an era of COVID-19 infection control

In these unprecedented times, new regulations need workers to manage infection control while in the direct care of others.

There is increased opportunity for new workers to pick up skills in direct care and progress to an entry level role.

Gain these skills:

- Organise, provide and monitor support services for individualised plans
- Develop safe work practices when providing direct client care
- Comply with infection prevention and control policies and procedures including handwashing
- Ensure your own health and safety and the safety of others in your work environment

Requirements of the course

This course includes both online study and on-campus assessment.

Once enrolled, you will receive information about how to login to our [eCampus](#) and you will need to complete a literacy and numeracy quiz to show you can study the course online. Your study will involve

accessing content online for 3 study modules, followed by a series of online quiz assessments to test your knowledge.

When you finish your online study, there is one day a week attendance for the duration of the course at campus for the remaining modules, plus a compulsory requirement to attend a practical demonstration and assessment session.

READY**

Boost your skills for the future

This course can help you get ready for your first job, or re-skill quickly for jobs that are available as WA's economy recovers. **This course is absolutely free for anyone to study.** [Find out more.](#)

Overview

This course may be offered with a blended, flexible delivery model to enable social distancing measures to be undertaken during the COVID-19 pandemic. This approach may include a mix of online and classroom based delivery, as well as practical and work experience placements. Lecturers will provide any specific instructions if your training delivery style needs to change.
