

Painters Registration - Business and Estimating Skill Set

State ID: GAA58

About this course

There are two units of the Course in Painters Registration included in this short course.

AUL08 Establish legal and risk management requirements of small business (BSBSMB401)

This unit describes the skills and knowledge required to identify and comply with all regulations affecting the business. It applies to individuals operating a small business who use analytical skills to interpret legislation and regulations and develop procedures to manage compliance.

W9241 Identify and produce estimated costs for building and construction projects (CPCBC4004A)

This unit of competency specifies the outcomes required to establish the estimated costs associated with the acquisition of materials and labour on building and construction sites, together with the application of relevant overhead costs and margins. Knowledge of physical resource and supplier identification, assessment of the availability of and requirements for skilled labour and application of appropriate codes, regulations and approvals gaining processes is essential.

Participants must have previous experience in the painting industry and be seeking licensing with the Building Commission.

Completion of all four units from the Course in Painters Registration will satisfy requirements for licensing.
