

9 Weeks Navy Skill Set

State ID: GAA83

About this course

This qualification provides competencies to select, install, set up, test, fault find, repair and maintain electrical systems and equipment in buildings and premises. It includes ERAC requirements for an Electrician's licence.

This course comprises two components:

1. Recognition of Prior Learning (RPL)
2. Class delivery of 5 units
 - UEENEEE137A - Document and apply measures to control OHS risks associated with electrotechnology work
 - UEENEEG063A - Arrange circuits, control and protection for general electrical installations
 - UEENEEG107A - Select wiring systems and cables for low voltage general electrical installations
 - UEENEEG103A - Install low voltage wiring and accessories
 - UEENEEG104A - Install appliances, switchgear and associated accessories for low voltage electrical installations.

Pre-requisite:

Civilians and individuals who have departed or are near departing the Navy

2019 Dates

Commencing Monday July 22, 2018 (2-4 nights per week)

Overview

Semester 1, 2019

Rockingham Campus - No future dates at present

Duration: **9 Weeks**

When: **Semester 1, 2019**

How: **Full Time**

Fees:

Non-concession

- Electrical Technician (Electrical/Electronic Trades) \$1,589.00
- Marine Technician (Mechanical/Electrical Trades) \$2,759.00

Units

Core

Unit Title	National ID
Solve problems in single and three phase low voltage machines	UEENEEG006A
Solve problems in single and three phase low voltage electrical apparatus and circuits	UEENEEG033A
Arrange circuits, control and protection for general electrical installations	UEENEEG063A
Solve problems in electromagnetic devices and related circuits	UEENEEG101A
Solve problems in low voltage a.c. circuits	UEENEEG102A
Apply environmentally and sustainable procedures in the energy sector	UEENEEK142A
