

Nail Technology Skill Set

State ID: GAB52

About this course

Develop the practical skills and knowledge to care for and enhance the appearance of nails.

Learn the skills and knowledge to apply, maintain and remove acrylic and gel nails, apply advanced nail art and the use of the electric drill. You will learn how to consult with clients, select suitable products and techniques and apply nail enhancements that include overlays, refills, tips and French.

Learn how to:

- Apply gel nail enhancements
- Apply acrylic nail enhancements
- Apply nail art
- Use electric file equipment for nail services
- Apply advanced nail art
- Apply safe hygiene, health and work practices

Course induction material is provided on the first night. All course materials including a nail kit for home and class use is included in your course.

On successful completion of this course students will have achieved national recognised units of competence which are part of the SHB30315 Certificate III in Nail Technology qualification.

Free parking. Security is present on the premises for evening classes.

Requirements:

- Access to a computer
