

Electrical Trade Revision

State ID: S0057P

About this course

The Electrical Trade Revision course is for 4th year apprentices. The aim of the course is to provide apprentices the opportunity to review and revise the electrical principles and essential performance criteria they have covered in the past 4 years.

The following subjects are covered:

- Technical Standards
- Installation testing and isolation procedures
- Maximum demand
- Cable selection
- Circuit protection
- Appliance testing
- Electrical theory

Overview

This course may be offered with a blended, flexible delivery model to enable social distancing measures to be undertaken during the COVID-19 pandemic. This approach may include a mix of online and classroom based delivery, as well as practical and work experience placements. Lecturers will provide any specific instructions if

your training delivery style needs to change.

All year round, 2020
