

Engineering Revalidation Part C

State ID: S0107P

About this course

If you hold an Engineer certificate of competency you should apply to us to revalidate your certificate before it expires, if it has not been suspended or revoked. Whether your certificate is valid, or has expired, the revalidation requirements are the same.

Refer to the [AMSA website](#) for further information on revalidation.

Revalidation PART B, common to Masters and Deck Officers

- Engine and Boiler developments
- Current technologies
- Electrical Practical requirements including HV revision
- Review of leadership and management skills
- Review of recent incidents relevant to engineers

NOTE - All revalidation courses have the option for Part A delivered two weeks prior to start of the revalidation course Part C.

2020 dates

This course is a 5 day in class course, starting on the days below in 2020.

- Monday 17 August

Overview

This course may be offered with a blended, flexible delivery model to enable social distancing measures to be undertaken during the COVID-19 pandemic. This approach may include a mix of online and classroom based delivery, as well as practical and work experience placements. Lecturers will provide any specific instructions if your training delivery style needs to change.
