

Azure Administrator Exam Preparation

State ID: S0135P

About this course

Gain the skills needed to pass AZ104, Azure Administrator

Students in this course will be introduced into content covered in the AZ-104: Microsoft Azure Administrator Exam.

If you are interested in becoming an Azure Administrator who manage cloud services that span storage, security, networking, and compute cloud capabilities this course is for you!

Gain these skills:

- Deep understanding of each service across the full IT lifecycle
- Taking requests for infrastructure services, applications, and environments
- Making recommendations on services to use for optimal performance and scale
- Provision, size, monitor, and adjust resources

Students participating in this course should have an understanding of PowerShell, the Command Line Interface, operating systems, virtualisation, cloud infrastructure, storage structures, and networking.

Dates of next courses:

- 27 August to 22 September
- 6 October to 8 December

Overview

This course will be offered with a blended, flexible delivery model to enable social distancing measures to be undertaken during the COVID-19 pandemic. This approach may include a mix of online and classroom based delivery, as well as practical and work experience placements. Lecturers will provide specific instructions to their student groups on how training will be undertaken.
