In order to make an informed choice about the suitability of this course, you must take into account the essential skills and knowledge in addition to the critical aspects of assessment of this course or qualification.

**Study Area- Health**

**Qualification:** Diploma of Nursing (National Code: HLT54115)

This is a Diploma Level Qualification under the Australian Qualification Framework (AQF). Entry to the Diploma of Nursing is very competitive. As part of an application for this course you will be required to sit and pass a two-hour test on literacy and numeracy. There are also other language entry requirements for this course (see the website). On completion of this qualification graduates can gain employment in the health industry. The role of the Enrolled Nurse requires direct patient care and this is a large part of the workplace requirements, and therefore requires applicants to consider their ability to complete these types of tasks and their consequent suitability for the course.

Further information about this course level including the necessary skills for successful completion are available at:

[https://www.aqf.edu.au/aqf-levels](https://www.aqf.edu.au/aqf-levels)

**Industry Career Pathways**

Students who have completed the Diploma of Nursing from the Health Training Package listed above may seek employment in the following industry career pathway, once they have registered with the regulation agency, Australian Health Practitioner Regulation Agency (AHPRA);

- Enrolled Nurse

For more information and details relating to employment, work roles, tasks and career pathways related to Health please refer to;
Core Skill Requirements (Inherent Requirements)
To work in the industry area identified, the following skills needs to be considered;

Observational skills – this includes the ability to:
- notice changes in people’s behavior, ability and the environment
- recognise the deteriorating patient
- identify safety hazards and risks
- observe and understand non-verbal cues (e.g. facial expressions, body language)
- identify signs of verbal distress and / or aggression

Communication skills – this includes the ability to:
- communicate effectively with a range of people (e.g. clients, families, co-workers)
- use appropriate language and respect when working with people from different cultures
- listen attentively to what is being said
- read and understand written information
- understand and follow written and verbal instructions
- understand and respond to verbal and non-verbal communication
- write comprehensive communication appropriate to the situation
- use technology to communicate (e.g. computer for reports, emails, documents)
- communicate and work with other people as a team

Technical and / or Motor skills – this includes the ability to:
- deal with physical demands of manual tasks (e.g. bending, squatting, kneeling, crouching, repetitive movements, carrying, reaching)
- be on your feet for extended periods of time, both walking and standing
- grasp, push, turn and manipulate objects
- use equipment and other technology (e.g. computers, push wheelchairs, manual handling equipment)
- have sufficient vision to safely perform the required range of skills
• hear and differentiate sounds that may alert you of a problem (e.g. alarms, calls)
• deal with body fluids (e.g. urine, faeces, blood)

Cognitive / intellectual skills – this includes the ability to:
• gather, understand, organise, recall and communicate information
• use judgement / basic problem-solving skills (e.g. to respond to immediate safety risks)
• understand other people’s perspectives / opinions and respect their choices
• understand and use maths effectively (e.g. measurements, calculations, 24-hour clock)
• maintain a sufficient level of concentration to complete an activity / task
• be attentive in interaction with others (e.g. to identify risks, to identify changes)
• perform tasks in a safe manner and within reasonable timeframes

Behavioural and social skills – this includes the ability to:
• demonstrate patience and willingness to work with a variety of people
• able to work under pressure
• demonstrate professional behaviour (e.g. punctuality, maintaining confidentiality and respect personal boundaries)
• control your emotions and reactions and withhold personal opinions
• tolerate proximity with individuals and be able to interact with all genders
• adapt to change
• take responsibility for own actions – including use of social media
• comply with legal requirements of industry (e.g. criminal history check)

Language, Literacy & Numeracy
The Language, Literacy & Numeracy requirements are core skills for all job roles at all levels. The Australian Core Skills Framework (ACSF) indicates that the five core skill areas are reading, writing, numeracy, oral communication and learning which we apply in our personal and community; workplace and employment; and education and training. Some of the core language, literacy and numeracy (LLN) skills for entry into this industry are:

• Learning – legal and ethical guidelines of work, understand human needs, individual differences, service standards, safety policies and procedures
• Reading Skills - reading and understanding client care and treatment plans, patient charts, procedures and work instructions, industry specific terminology and symbols, workplace safety signs
• Writing Skills - completing forms, patient charts, documents, WHS reports, taking messages
- **Oral Communication** – active listening skills, communicating with clients and their family, team members. Communicating with clients who have impaired communication. Effective questioning, phone skills and providing information to team members.

- **Numeracy Skills** – measure fluids, read weights and measurements, interpret and document in charts, calculate timeframes

- **Problem Solving Skills** – identify and respond to client’s needs on a daily basis.

- **Technology Skills** – use software to update observation notes and record product purchases

**Vocational Placement Requirements**

As part of your course you are required to complete vocational placement (work placement). The placement is arranged / negotiated by the South Metropolitan TAFE. Students will be provided with forms and a clinical placement book to record their placement.

It is an industry requirement for students on placement to achieve and complete:

**A minimum of 420 hours vocational placement is required to be completed for the following qualification:**

**Diploma of Nursing (National Code: HLT54115)**

**Note:** Students will be required to:

- complete a satisfactory Working with Children check / National Police Clearance (NPC) and Department of Health criminal check prior to placement
- complete a fitness to practice medical form and any immunisations/vaccinations required
- travel to an appropriate Health organisation to complete clinical placement
- attend clinical placement across a seven (7) day week, which includes weekends and public holidays
- carry out shift work including AM, PM and night shifts

**Other Considerations**

Students are required to have access to a computer and internet (SM TAFE students can access computers via its libraries – available at Rockingham, Murdoch, Bentley, Mandurah and Thornlie campuses).

**Workplace Health and Safety**

All workers must understand their workplace health and safety obligations and safety requirements under the:

- WA Occupational Safety & Health Act 1984, which imposes obligations on people at workplaces to ensure workplace health and safety.
• Occupational Safety & Health Regulations 1996 (WA) that describes what must be done to prevent or control certain hazards which cause injury, illness or death.
• Codes of Practice, which are designed to give practical advice about ways to manage exposure to risks common to industry.

All workers must be able to participate in Risk Assessments, Incident Reports and Hazard Identification.

Industry Legislation or Licensing
All workers must meet the qualification and / or legislative requirements set by industry standards. These are core requirements for eligibility to work in specific industry areas and to gain professional membership to practice as an Enrolled Nurse with AHPRA.

A Criminal History Check conducted through the National Police Check, is required to work in health and aged care.

Individual students are responsible for any cost associated with obtaining a Criminal History Check, Department of Health clearance and Working with Children check.
