How to connect an iPad / iPhone to the External-Admin Wireless Network

This document details how to connect an iPad to the External-Admin wireless network in Polytechnic West campuses. This document also applies to iPhones.
1. Go to your iPad’s “Settings” page by locating and tapping the Settings icon.
2. In Settings page:

   a. Go to Wi-Fi area.
   b. Make sure Wi-Fi is turned on.
   c. Tap on “External-Admin”. NOTE: Do not tap on the blue arrowhead on the right of the name “External-Admin,” as that will not result in the desired action.
3. When asked to enter password:

   a. Enter in your username and password. This is the same username and password you would use to log into the computers in your office(s).

   b. Tap on “Join”.

   ![Image of Wi-Fi settings screen with password entry]

   - **Username**: wijaye
   - **Password**: ************
4. When presented with the (currently) not-verified certificate, tap on “Accept”.
5. Provided your username and password combination is accepted, you should now be taken back to your Wi-Fi settings page, where you will see a “progress wheel” next to “External-Admin” (figure 1). This progress wheel will soon turn into a “tick” (figure 2).
