How to Connect a Windows 10 Computer to the PWASStaff Wireless Network

This document shows how to connect a Windows 10 computer to the “PWASStaff” wireless network.
To Connect to PWAS staff wireless network

1. Click the WiFi icon on the Taskbar.
2. On the list of available WiFi networks, click on PWAS staff.
3. Click on Connect.

4. Enter in your username (13+StaffID) and password. This is the same username and password you use to log into the computers in the offices.
5. Click Ok.
6. You have now connected to the PWASTaff WiFi network!
