Certificate II in Furniture Making (Cabinet Making/Furniture Making) Pre-Apprenticeship

National ID: MSF20313 | State ID: AA45

About this course

Do you have a way with wood and a building desire?

When you complete the Certificate II in Furniture Making (Cabinet Making/Furniture Making Pre-Apprenticeship), you'll be what employers are looking for as an apprentice furniture maker or cabinet maker.

This qualification is designed to provide the learner with foundation skills therefore enhancing apprenticeship prospects in the building and construction industry which is experiencing a current skills shortage.

Students learn skills in handling construction materials, basic hand skills, reading building plans, measuring and calculations. This qualification has an emphasis on the practical aspects of building and construction and will include a number of basic construction projects constructed on campus as part of the training course which complements their classroom studies.

Cabinet makers work from plans or drawings to make home and office furniture, as well as make built-in cupboards and fixtures for new homes and shops.

The qualification will be completed in two years.
